Dear David,

Thank you very much for your kind letter of sympathy for our loss of Nick.

He was a remarkable man in so many ways - of towering intellect, and logic that did not always agree with convention. He was courageous and persistent, a perfectionist who could be intolerant of lesser mortals; yet he had great love in him, particularly to family and old friends, and they are repaying their friendship with expressions of the love that he had ^{engendered.} within them.

He was my companion from the start, and has been and always will be a presence in my life.

Thank you again.

Yours ever

Anthony
